Rajkumar Yadav

Software Engineer | Masters NIT Jamshedpur

nitjsrrajkumar@gmail.com | +91 8528151048 | Hyderabad, Telangana | itsrajkumar | portfolio

EDUCATION

National Institute of Technology(NIT), Jamshedpur

Master of Computer Applications, Computer Science and Engineering — Jul 2020 - Jun 2023

Makhanlal Chaturvedi National University of Journalism and Communication

Bachelor of Computer Applications, Computer Applications — Jan 2017 - Jun 2020

WORK EXPERIENCE

ByteXL

Member of Technical Staff — Jul 2025 - Present

- Working as a Java, Spring Boot, and SQL Developer, designing and delivering scalable backend applications with efficient database integration and RESTful API development.
- Developed and maintained backend services and RESTful APIs using Java, Spring Boot, JPA/Hibernate, and MySQL/Oracle, ensuring scalable, secure, and high-performance applications.
- Designed and optimized SQL queries, database schemas, stored procedures, and indexing strategies to improve data retrieval performance and transactional efficiency.
- Developed reusable and modular backend components, collaborated with cross-functional Agile teams, and participated in requirement analysis, code reviews, debugging, and production support.
- Improved code quality by achieving 80%+ unit test coverage using JUnit and Mockito, integrating SonarQube for static code analysis, and applying clean code principles to reduce technical debt.
- Utilized Git, Maven, Postman, Java Stream API, and Agile methodologies to streamline development, API testing, version control, and continuous code improvement.

Scoreme Solutions Private Limited

Software Development Engineer — Sep 2024 - Apr 2025

- Designed and developed a scalable digital loan application using Java and Spring Boot, leveraging reusable service components and modular architecture to improve development efficiency by 30%.
- Designed and optimized Oracle database schemas, indexes, and SQL queries through normalization and query tuning, reducing query response times by 40% and improving transactional performance.
- Developed and consumed RESTful APIs, performing API validation and functional testing using Postman to identify and resolve defects, improving API reliability and fault tolerance by over 90%.
- Collaborated with cross-functional teams in an Agile environment, participating in requirement analysis, code reviews, debugging, and delivering high-quality backend solutions.

Amdocs

Software Engineering Associate — Aug 2023 - Sep 2024

- Contributed to development of critical components of networking service, ensuring high-performance.
- Collaborated with cross-functional teams to design and implement solutions in C++, and Java.
- Utilized PostgreSQL to design and maintain databases, optimizing data storage and retrieval processes.
- Conducted API testing using Postman, identifying and resolving issues to enhance quality of services.

SKILLS

- Proficient in Java, SQL, Spring Boot, Spring Security, JPA, Hibernate, Oracle, MySQL, REST APIs.
- Course work includes Data Structures and Algorithms, Operating Systems, DBMS, OOPs.
- Hands-on experience with Git, Maven, Docker, Swagger, Postman, Prometheus, Grafana, Apache Kafka.
- Skilled in Low-Level Design, Multithreading, SOLID Principles, Microservices, and Design Patterns (Singleton, Factory, Strategy, Observer, Builder, MVC).

ACHIEVEMENT

- Earned **Knight** badge on LeetCode for problem-solving and active participation in global contests.
- Solved more than 1K DSA problems on various online judges such as Leetcode and GFG.
- Secured 582nd rank(AIR) in NIT MCA Common Entrance Test, Conducted by NIT Raipur.
